

RING POLISH

www.rimexmetals.com.au

Ring Polish is a special polish consisting of 50mm diameter circles polished in a fish scale type, overlapping pattern. Ring Polish finish appears to be textured but is actually an optically flat, smooth finish ideal for applications such as easy to clean, decorative panels.

Ring Polish is available in Standard sheet sizes as well as custom sheet sizes

Ring Polish is ideal for surfaces that must be easy to clean & maintain.

It is a highly decorative pattern and is ideal for most end uses & surfaces including hygienic areas in food preparation environments that want to maintain the prestige look.

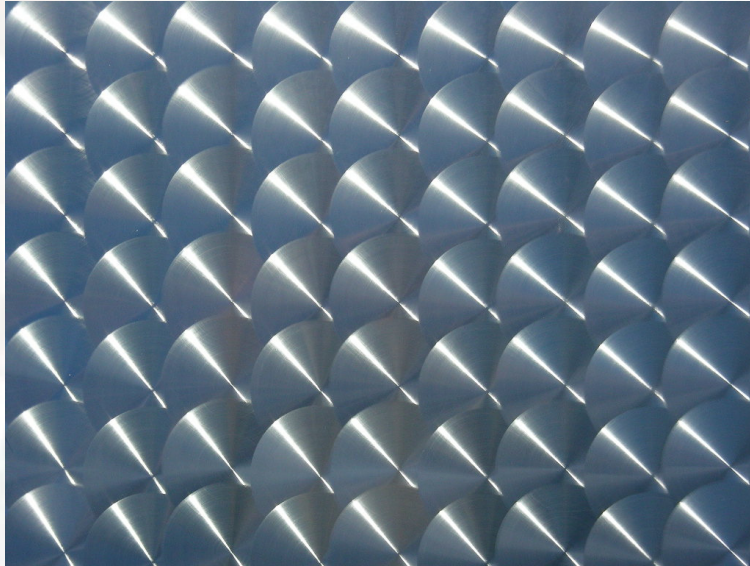

Ring Polish is also available in 316 grade Stainless Steel and Aluminium
